## MAGAZINE SUBMISSIONS:

Anyone wishing to submit Articles, Information, For Sales, etc. for the next magazine please call me or send the article. Closing deadline for magazine is the Thursday following meetings.

Ph & Fax; (07) 47727292(H) E-Mail: rebeldog@aapt.net.au

I am open to suggestions for articles in the magazine eg. Tech Tips, News and Views, etc. so don't be shy. A club magazine is the lifeblood of a club; it informs members, sponsors (I hope you give the people that support you a copy) and keeps the interest up. So if you have something to say, say it in the magazine so ALL members get to know about it.

## PRESIDENT'S REPORT

Ron has passed on the minutes for the last Queensland Rally advisory panel and Queensland Stewards advisory panel meetings. There are also details for members to receive discounts through Meridian Motorsport Pty Ltd. Details about the above can be found through the newsletter.

## EDITOR'S REPORT

I have to apologise for this month's edition being so late. Some technical difficulties with the printer I own and computer held us up. So once again I apologise. Well that's another month that has passed. Travis and I have been looking at starting a new event (Khancross) at Mingela Rodeo grounds so keep an eye out in the next few issues for further details. Murray's Motorkhana is on again at Cluden in August let's hope the entries top the last event. Well that's it for me if anyone has anything they would like to go in the newsletter just gives us a call or send us e-mail.

## SECRETARY'S REPORT

Chris was away this month so lovely Wendy Hickey stood up to the task. Wendy's secretary and Club Captain reports can be seen further in the newsletter.

# CLUDEN MOTORKHANA

There were some enthusiastic responses to the calling of entrants to the latest of motorkhana racing, which was held at a new venue being the BP Cluden, on the 18<sup>th</sup> June 2006. Much thanks goes out to the team at the BP Cluden for providing Twin Cities Autosports Club with a great section of concrete onto smooth bitumen surface. A fine layer of sand was spread over the top to excite things up a bit.

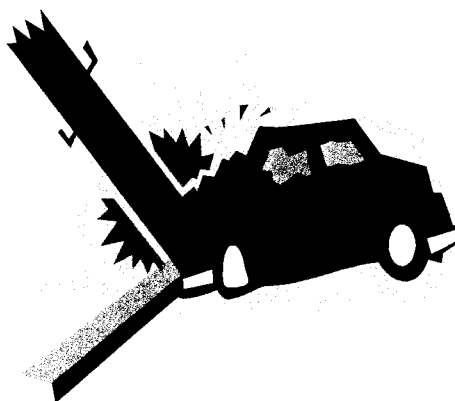

Grief struck a few entrants who found the concrete gutter, boarding one edge of the course, which came up a little bit quicker than they expected including me.

It was great to see so many juniors enthusiastic about their racing with parents and friends encouraging them. Good safe race driving. And good competitive driving from the veteran drivers ensured no shortage of entertainment for a great turnover of spectators, some no doubt ably spotting the action from the BP Service Station itself. Outright placing went to the Parnell racing team keeping it clean all day.

The event was a roaring success and will be held again on the 6<sup>th</sup> August 2006 much thanks go out to all the helpers of the event, the BP Cluden and Murray for organising such a fantastic event.

See ya next month

### **Club Captain Report.**

A big thank you to Nathan for the great night at simulator raceway on Thursday 25<sup>th</sup> May. The lack of club members was very disappointing but thanks to Nathan's friends and associates the night turned into a winner for the club. On speaking to Adam at the raceway he has indicated he is willing to tailor an evening to meet the clubs' individual wants and needs. These include and are not limited to the following:

- Static vehicle displays inside
- Merchandising displays
- Provision of Food at cost
- Simulator usage and provided food and drink consumption are your only costs
- BYO alcohol (responsible alcohol consumption)
- Bring your own music
- Bring your own videos / DVDs –last club race event – latest releases – teaching modules
- Bring your own card or board games – plenty of tables and chairs
- Ladies welcome – watch from the comfort of a big sofa or join in the racing
- Children welcome
- Spectators free – come in at any time to watch - 5 minutes or 5 hours
- Big screen
- Individual race car TV monitors – watch your partners every manoeuvre
- Individual or team race events and competitions
- Variety of race tracks, circuits and cars
- Various degrees of difficulty to suit your driving skills

Talk to Nathan, let him know what you want to do. The venue has a totally different vibe to our club meets or events. And no, it's not just another kids' (boys) computer game.

Again, Nathan's organisation excelled at the Car Show held at the showgrounds. Give yourselves a pat on the back for a great turnout. Plenty of club flyers were handed out and interest shown in our club events. Our club provided the majority of action in the go to whoa and presented a skilful display of driving ability and tyre warming (?) action for the spectators. I have been assured; self-enjoyment and larking around were not on the agenda. It was good to see Curly and his car in action on the course. Also heard Chris' car was real horn(y).

Shame to hear the weather and time are against us holding some of our bigger events. We can only hope a few of the "feelers" some clubs members have out for new venues and events comes to fruition.

We need more active club members, get involved, share a car, help out. If a mate needs a hand or part to gets his / her car on the track how about helping them out. One day it could be you needing the favour returned. whcc

## **MOTORKHANA**

### What the....

A competition, which tests a drivers' skill and judgement and a cars' acceleration, braking and manoeuvrability around a twisty course in the quickest possible time without mistakes. Motorkhanas can be held on a sealed or unsealed surface and do not include a speed event. Cars are timed and run in turn, singly through no fewer than four courses, defined by flags or witches hats. Directions for all tests are given to each competitor.

Cars.... As long as it is safe, it can run. The comp car, weekend cruiser, grocery getter, mum's run-around. A seat belt is required and all cars are safety checked before allowed to run.

Who can.... Male or female. Juniors: not less than 12 but less than 18 years of age on day of event. Parents signed permission to race is required. Seniors: 18 years and older.

Dress.... Minimum short sleeve shirt, shorts and enclosed shoes. No car roof, a helmet to AS1698 standard is required. No windscreen, adequate eye protection must be worn.

Licences.... You need a CAMS licence and membership to a CAMS affiliated club. These can be purchased on the day of event.

Drugs and Alcohol.... Are a no go zone. Seen to consume or be visibility affected by drugs and / or alcohol you will be excluded immediately.

Safety.... Safe operation of a vehicle is paramount within the motorkhana test and spectator area. All speed limits, instructions and warnings issued by officials must be adhered to at all times.

How do I.... Vehicles start and finish each test in a forward motion. Starts must be stationary and wholly within the "garage" (defined by markers) and close to the start line. Aligning assistance can be sort from an official. Never start your test until given the "all clear" from the timing officials. Tests must be done in the correct order and direction. After crossing the finish line, a vehicle has 10 seconds in which to become stationary wholly within the "garage" without reversing.

Penalties.... Two basic penalties apply - plus 5 seconds and slowest time plus 5 seconds. These can apply to – knocking down a marker, not fully or correctly garaged, failing to completely halt at finish, wrong direction, failure to complete test, running out of order, reversing after finish line.

These are the very basics of motorkhanas. By participation, looking, listening and learning you skills and knowledge will improve. whcc

# HERBERTON KHANACROSS

We headed up to Herberton on Friday night – what a pea souper of a fog we hit half way up the hill. That combined with heavy rain meant that visibility was basically nil! But on we trundled wondering if the khanacross would be cancelled. We stayed at Malanda that night – rain, red mud and cold temperatures – what a great place to live.

On Saturday we headed off to Herberton/Tepon Raceway with a sinking feeling – surely it was too wet to race. But at the raceway it was quite dry and there was even some dust! Bring On The Racing !!! We even needed the water truck. Mind you I'm sure Ron Moore (the trusty water truck driver and Escort racer) was determined to slow Lance down by wetting the track just before all of his races. We all had a lot of fun. The track was quite slippery and the trees were awfully close – really close to Nikki's front left guard, headlight and bonnet. At least last time she bent the right hand side – so now the car is balanced.

Jess Moore learnt how hard steering wheels can wrench your hand. She tried to grab the car keys when they fell out of the ignition and somehow the car changed direction all by itself! Pain and swelling of her right hand was the result. The guys in the Corona stationwagon had severe radiator problems resulting from trying to mould the front of the car to the shape of a tree trunk. Not good... Cameron and Jason had Cortina problems when they hit a rut with the cross member and the engine shunted forwards, it wasn't too good after that.

The centre track was a really fast set-up on Sunday and the grass was slippery and wet after the overnight rain – any way the donuts I did were fantastic!!! Round once, lost it again, and round again!!! It was a great show of highly skilled driving right in front of everyone and even caught on film! But what was even more amazing was the fact I beat Lance!! Pure Skill!!! I must have been driving so amazingly skilful that Lance just didn't stand a chance. I got a trophy and he didn't. Now that's a first.

Chris Beckett didn't hit any trees, neither did the Melrose's – only poor Nikki had a deep and meaningful relationship with the remodelled her car. But we all finished the weekend with Chris, Nikki and Travis getting trophies as well as me! Lance missed out! Did I say that before??

Well once again, you guys missed a great weekend. The next one is at the end of July so get ready now.

See you then,

Deb & Lance

# Thanks Colin

Twin Cities Autosports Car Club would like to thank Colin Brierley for kindly donating a portable shade structure for use by the club at our events. No doubt this will be greatly appreciated by the club members on hot, sunny days. Thanks also for the other work you do to assist the club with the running of events.

There is also a quick THANK YOU to all those helpers who showed up for the working bee up Mt Stuart this was greatly appreciated. THANKS EVERYONE 📱
